

Guangzhou AoZhong Fan Equipment Co.,LTD

CKS FangYuan Industry

CBA Utility Sets

国家防爆

CKS Fang Yuan Industry CBA Centrifugal Blowers are designed to provide efficient and reliable operation for commercial and extractive industry. Our products are manufactured with state of the art laser, forming, spinning and welding equipment and ensure our quality control testing to ensure trouble free start-up. Our CBA Centrifugal Blowers are including industry leading design features to ensure your ventilation equipment has the latest technologies available

Main feature with CBA Centrifugal Blower,,

- Concentric mount bearings with industry's highest cataloged bearing life
- Full mold, full welded structure
- Corrosion resistant, electrostatically applied and baked powder coatings
- Both belt and direct drive configurations
- Different motor brackets
- ISO9001:2000 controllable standard

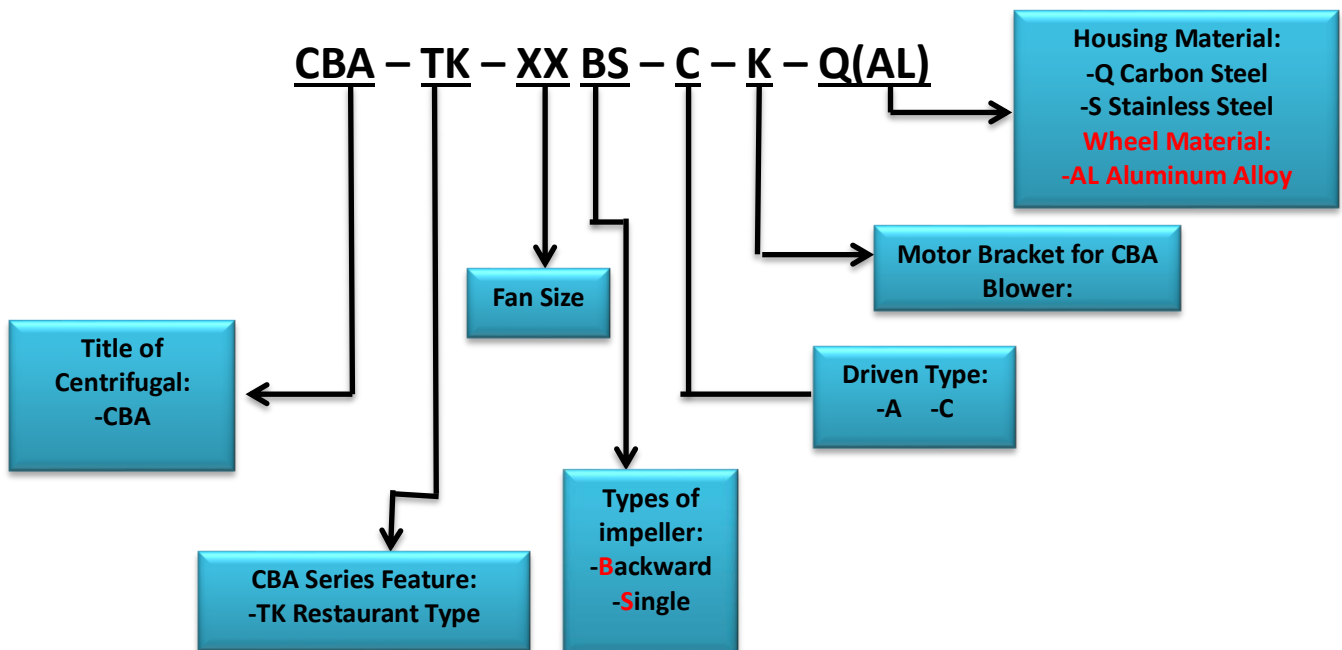

Every CBA has been test for three different planes before package. Typical applications include:

- Stairwell Pressurization
- Restaurant Grease Exhaust
- Explosive gases emissions
- Mechanical equipment supporting

Engineers in Guangzhou AoZhong Fan Equipment Co.,LTD can assist you in improving the operational efficiency of the air movement in your system.

CBA Centrifugal Blower Model Number Code:

CBA Construction Details

CBA-TK Series: Direct drive, carbon steel and stainless steel are available. CKS Fangyuan leading design product with large air volume and medium pressure

CBA Notes

- Please check all the parts of the body in details and make sure whether there is damage inside or not. It is because the fan may be damage during the transportation. If any, it should be repaired before it install
- The motor and impeller should connect properly, and its protection level is IP54, insulation class is F.
- Please do check the fan and duct, and ensure that there are no obstructions to hinder the rotation. If any, it should be cleared before starting
- Running in a given value and the fan should be rotate in a given direction
- If any unexpected sound and strenuous vibration occurred, please switch off the blower and repair the breakdown before it use.
- The fan cannot bear the weight of duct and it needs to provide an extra bearing frame to bearing.

General Questions

Did not rotate

- Wrong Voltage
- Power shut down or wrong wiring
- Overload protection
- Fuse burn-out.
- Loose of pulley.
- Failure of belt

Limited Air Volume

- Wrong rotate direction.
- The real air speed is lower than expected
- Static pressure is too much
- Restricted Inlet or Outlet
- Blocked Inlet or Outlet

Too much Air Volume

- The real air speed is higher than expected
- Static pressure is too less
- The blower is not installed in the right position

Company Introduction

CKS FangYuan Industry is China based business owned and operated by its management team. We specialize in air movement and have experience gained more than ten years of operation with worldwide predecessors. We service the ventilation equipment needs of customers ranging from HVAC through mining, manufacturing, construction, and agriculture as well as retail end users include Tianjin and Suzhou retail stores. We build our products in state of the art facilities in Guangzhou, WuHan and DeQing. We adapt ISO9001 quality system to ensure our customers are using best products.

Capabilities and Services

1. Fan and Blower design and manufacture
2. Fully performance tested products and published data
3. In-house design engineering team
4. Scale and capacity to handle any size project
5. Servicing overseas markets with built products and OEM supply
6. Sales and after sales support teams
